Each co-author is stated in the separated row. After the details of the last author or co-author 2 empty rows should be left.

Text of the paper is written in one column with 1 line spacing.

HEADLINES

Headlines are written in CAPITAL LETTERS, BOLD, starting at the beginning of the left margin (no indentation). Each is preceded by 2 empty rows (unless the chapter title starts at the top of a new page). The chapter title is followed by one empty row.

Subtitles of the 3rd level are written in upper and lower case, bold. They start at the beginning of the left margin (no indentation), and behind goes a spot. Two empty rows proceed but text goes in line with title.

MISCELLANEOUS

Indentation should not be used. Text always begins from the left margin.

Literature: Literature should be marked by numbers in the brackets e.g. Savic [1], Savic i Smith [2]. If one source is cited more than one time, only reference number should be stated.

The numbered list should be provided at the end of the paper, each row for the new reference, in the following form: authors surname and name initial letter, publication year, title, magazine title (underlined), issue number (underlined), page;

In case the title of table occupies more than a row, the other row should start with an indent (below the first letter of the title of the table). All columns in table should be clearly marked with symbols or units in which content of the row is expressed.
