Names of the authors and co-authors are centered, as specified: **Full name + Surname (e.g. John SMITH)**, without titles and other professional qualifications; this is followed by the name of the organization (company, institute, faculty, etc.) and country that the author comes from. Each co-author is stated in the separated row. After the details of the last author or co-author 2 empty rows should be left.

Text of the paper is written in one column with 1 line spacing.

Before the paper text, summary of the paper needs to be included, introduced as a rule since this conference.

Summary of the paper - abstract will be published in a special publication of the Conference – Book of Abstracts. Summary should be submitted together with the paper, within the same document, in electronic format.

A brief summary should be prepared in accordance with paper sample given below, whereas the length of the content does not exceed 300 words. At the end of the content it is obligatory to emphasize key words of the paper.

Summary must be delivered in English language with text written in one column with 1 line spacing.

Contact details are given after the summary, in **Times New Roman 8**.

Headlines are written in CAPITAL LETTERS, BOLD, starting at the beginning of the left margin (no indentation). Each is preceded by 2 empty rows (unless the chapter title starts at the top of a new page). The chapter title is followed by one empty row.

Subtitles of the 2nd level are written in upper and lower case, bold. They start at the beginning of the left margin (no indentation), preceded by two empty rows (except in case it is at the page beginning) and followed by one empty row.

Literature: Literature should be marked by numbers in the brackets e.g. Savic [1], Savic and Smith [2]. If one source is cited more than one time, only reference number should be stated.
